

ULTRA DURABLE MATTRESSES

MONET X FIRM

HEIGHT 12"

Spring System:

- a. Very best quality SAMPSON high gauge steel Independent coil create a deep-down firm support that is will never break down.
- b. Engineered in Switzerland for optimal precision
- c. Even support across the surface, keeping sleepers from rolling together at night and minimizing partner disturbance.
- d. This spring sleeps 28% cooler than foam beds.

Ultimate Edge Support:

- a. Foam encasement perimeter foam block around the coils creates a sturdy edge that responds along with the coils, so you can sleep all the way to the edge without feeling like you're about to fall off, and you can sit comfortably without having it collapse.

Support Layers:

- a. 1" High Density Foam is exceptionally durable and long-lasting, with properties that allow the mattresses to have long lasting comfort
- b. 1 ½" Furniture grade highest density firm foam will never break down and create long lasting comfort.
- c. Hand tufting is a process of compressing upholstery materials to ensure they perform consistently for a longer period of time, providing consistent comfort and increasing the comfort longevity of the sleep surface.
- d. Rayon cooling soft comfort enables the mattress to be cooler while protecting it from heat.
- e. 1 ½" Firm cooling gel foam is breathable and keeps you cool
- f. Super comfort four way stretch knit material adjusts to the weight of the body
