

# SPRING AIR

Our Mission is to Offer **UNIQUE PRODUCTS**  
with the **HIGHEST QUALITY**,  
While Providing **OUTSTANDING SERVICE!**

## THAT JUST RIGHT FEELING

1. We use high quality foams and materials.
2. We are made in Springfield, Illinois using products from the Midwest United States.
3. We recycle all our foam, plastic, and cardboard waste to be green to environment.
4. We support the local economy with donations to local charities.
5. We support our products with great customer service.

# CAMDEN FIRM

HEIGHT 13"

### Spring System:

- a. 672 Lura-Flex® coil is an open-end offset coil design for increased sensitivity and responsiveness to various body types.
- b. High coil counts that translate to more support for all body shapes, offering customized comfort.
- c. Consistent support and coverage across the mattress and all the way to the edge.

### Edge Support:

Foam encasement perimeter foam block around the coils creates a sturdy edge that responds along with the coils, so you can sleep all the way to the edge without feeling like you're about to fall off, and you can sit comfortably without having it collapse.

### Support Layers:

- a. 2" High density foam is exceptionally durable and long-lasting, with properties that allow the mattresses to have long lasting comfort.
- b. 2" High density cushion support for the base of the mattress creates a stable base for the mattress to support the sleeping surface.
- c. 1 ½" Firm cooling quilt gel is breathable and keeps you cool with optimal Spinal support for sleeping.
- d. Rayon cooling soft comfort enables the mattress to be cooler while protecting it from heat
- e. Phase change technology Incorporating special treatments to our materials that continually adjust to temperature, Phase Change Materials create a refreshing surface that feels amazingly cool.
