

COOL COMFORT MATTRESSES

IGLOO HYBRID

HEIGHT 14"

Spring System:

- 660 Independent coil is the optional amount of springs to conform to ones body. It has the pressure relief achieved through strategically placed comfort zones with in the mattress cradling your shoulders, torso, and hips.
- Even support across the surface, keeping sleepers from rolling together at night and minimizing partner disturbance.

Edge Support:

Foam encasement perimeter foam block around the coils creates a sturdy edge that responds along with the coils, so you can sleep all the way to the edge without feeling like you're about to fall off, and you can sit comfortably without having it collapse.

Support Layers:

- 1" High Density Foam is exceptionally durable and long-lasting, with properties that allow the mattresses to have long lasting comfort
- 3" Super-soft foam creates soft support for the mattress.
- Posturized center support gives more back support and increases the life of the bed.
- 1" Copper**-infused ions can also be absorbed through the skin to provide the following health **benefits**: Improve the immune system to ensure better would healing and prevent bedsores. Reduce inflammation known to **benefit** conditions such as arthritis and hard-to-heal bedsores.
- Graphite infused memory foam is 7 times more cooling that regular gel. It is pinned to increase air flow in the mattress creating a cooler night sleep
- Ice cold Polar top phase change cover creates a very cool sleeping surface that you can feel. Stays cold for a long period of time allowing you to get comfortable when falling asleep.
