

# CALM NIGHT GEL

HEIGHT 9.5"

## Key Benefits of the Series

Support System:

- a. 7" High density foam cushion support core that helps circulate air and wick away heat while you sleep.

Support Layers:

- a. 1 ½" High Density cool reflections foam is exceptionally durable and long-lasting, with properties that allow the mattresses to have long lasting comfort.
- b. 1" Gel Memory foam creates extra pressure relief for the whole body.
- c. Super comfort four way stretch knit material adjusts to the weight of the body.

# COASTAL DREAMS GEL

HEIGHT 10.5"

## Key Benefits of the Series

Support System:

- a. 7" High density foam cushion support core that helps circulate air and wick away heat while you sleep.

Support Layers:

- a. 1 ½" High Density cool reflections foam is exceptionally durable and long-lasting, with properties that allow the mattresses to have long lasting comfort.
- b. 2" Gel Memory foam creates extra pressure relief for the whole body.
- c. Super comfort four way stretch knit material adjusts to the weight of the body.

# CELESTIAL GEL

HEIGHT 11.5"

## Key Benefits of the Series

Support System:

- a. 7" High density foam cushion support core that helps circulate air and wick away heat while you sleep.

Support Layers:

- a. 3" High density cushion support creates a firm base of comfort for the gel mattress
- b. 2" Gel Memory foam creates extra pressure relief for the whole body.
- c. Super comfort four way stretch knit material adjusts to the weight of the body.

# COOL COMFORT FIRM GEL

## Spring System:

- a. 6" High density foam cushion support core that helps circulate air and wick away heat while you sleep.

## Support Layers:

- a. 3" High density cushion support is exceptionally durable and long-lasting, with properties that allow the mattresses to have long lasting comfort
- b. 2" Firm foam creates a firm sleeping surface.
- c. 1" High density gel cooling memory foam. Creates a cool comfort surface.
- d. 10,000 Jules of cooling material creates a super cool surface for a comfortable sleeping surface.

# COOL COMFORT PLUSH GEL

## Spring System:

- a. 6" High density foam cushion support core that helps circulate air and wick away heat while you sleep.

## Support Layers:

- a. 3" High density cushion support is exceptionally durable and long-lasting, with properties that allow the mattresses to have long lasting comfort
- b. 3" High density cool reflections foam. Creates a soft comfortable feel.
- c. 1" High density gel cooling memory foam. Creates a cool comfort surface.
- d. 10,000 Jules of cooling material creates a super cool surface for a comfortable sleeping surface.

# SAHARA COPPER

## Support System:

- a. 7" High density foam core creates a durable core for the mattress

## Support Layers:

- a. 2" Ultra high density foam creates ultra durable support for the base
- b. Posturized center support gives more back support and increases the life of the bed.
- c. 1 ½" High density super-soft foam creates comfort to the mattress.
- d. **3" Copper**-infused ions can also be absorbed through the skin to provide the following health **benefits**: Improve the immune system to ensure better wound healing and prevent bedsores. Reduce inflammation known to **benefit** conditions such as arthritis and hard-to-heal bedsores.
- e. Graphite infused memory foam is 7 times more cooling than regular gel. It is pinned to increase air flow in the mattress creating a cooler night sleep
- f. Rayon cooling soft comfort enables the mattress to be cooler while protecting it from heat.

# DAKOTA COPPER

## Support System:

- a. 6" High density foam core creates a durable core for the mattress

## Support Layers:

- a. 3" Ultra high density foam creates ultra durable support for the base
- b. Posturized center support gives more back support and increases the life of the bed.
- c. 1 ½" High density super-soft foam creates a soft firm.
- d. **4" Copper**-infused ions can also be absorbed through the skin to provide the following health **benefits**: Improve the immune system to ensure better wound healing and prevent bedsores. Reduce inflammation known to **benefit** conditions such as arthritis and hard-to-heal bedsores.
- e. Graphite infused memory foam is 7 times more cooling than regular gel. It is pinned to increase air flow in the mattress creating a cooler night sleep
- f. Rayon cooling soft comfort enables the mattress to be cooler while protecting it from heat.
